Incomplete List of Seagrass Related Studies from West Florida Estuaries (Any Omissions are Entirely the Responsibility of Jay Leverone)

Gilbert, Robbins, Luther and Lewis. 2009. Field measurements of bottom stress due to wave action and tidal velocities in Tampa Bay to support seagrass restoration and shoreline protection. TBEP Tech Publ. 03-09.

FWRI Selected Bibliography

2008 Community oxygen and nutrient fluxes in seagrass beds of Florida Bay, USA
2007 A new method to describe seagrass habitat sampled during fisheries-independent monitoring.
2007 Fish assemblages in seagrass habitats of the Florida Keys, Florida: spatial and temporal characteristics.
2006 Preliminary observations of abundance and distribution of settlement-stage snappers in shallow, nearshore seagrass beds in the Middle Florida Keys.
2005 Using seagrass coverage as an indicator of ecosystem condition.
2003 Diurnal fish density in relation to seagrass and drift algae cover in Tampa Bay, Florida.
2003 The effects of season and proximity to fringing mangroves on seagrass-associated fish communities in Charlotte Harbor, Florida.
2002 Assessing the impact of boat propeller scars on fish and shrimp utilizing sea grass beds.
2002 Patterns of change in the seagrass dominated Florida Bay hydroscape.
1999 Decadal changes in seagrass distribution and abundance in Florida Bay.
1999 Changes in seagrass-associated fish and crustacean communities on Florida Bay mud banks: the effects of recent ecosystem changes.
1995 Indicators of seagrass ecological condition: an assessment based on spatial and temporal changes.
